West Babylon School District  
West Babylon, NY

Dear Dr. Farrelly,

I am a Boy Scout from troop 175 in West Babylon. I am working on my Eagle Scout project. For my Eagle project I will be assisting a community group named Adopt-A-Battalion. This organization helps to support our men and women serving our country, fighting the war on global terrorism in Afghanistan, Iraq and Kuwait. I will be collecting personal care items and non-perishable snack food items. These items will be boxed and shipped overseas to US soldiers who generally do not have access to these types of items.

In addition I will be collecting handwritten letters from local students. These letters would be placed in the care packages that are being sent overseas. Most of the US soldiers are away from home for many months and the care packages and letters will help to serve as a reminder to the soldiers that their home communities are thankful for all that they do.

I am requesting access to PTA meeting in order to relay this information to the parents and teachers. I am also asking if you can share this information with your classroom teachers so that they can inform the students directly. I would also like to place a personal care item donation box in all school buildings to help facilitate collection of the needed items. In addition I am requesting that this information be placed in the virtual backpack for each school in the district.

P.s., I have a personal meeting with Mr. Devane at 9am Wednesday in the High School, I can also meet with you if needed to discuss my project.

Sincerely yours,

Anthony Cascio
